The Need for Transit

- Region growing fast (by 2030)
 - Weber County: 56%
 - Davis County: 64%
 - Salt Lake Co: 54%
 - Utah County: 87%
- Geography constrained to long, narrow corridor
- Growth in travel
- Congestion threatening our economic growth

Travel Growth

Growth in travel, population and highway capacity

Sources: WFRC, MAG, U.S. Census, GOPB, UDOT

**More traffic
congestion
and bad air.**

Transit already makes a difference

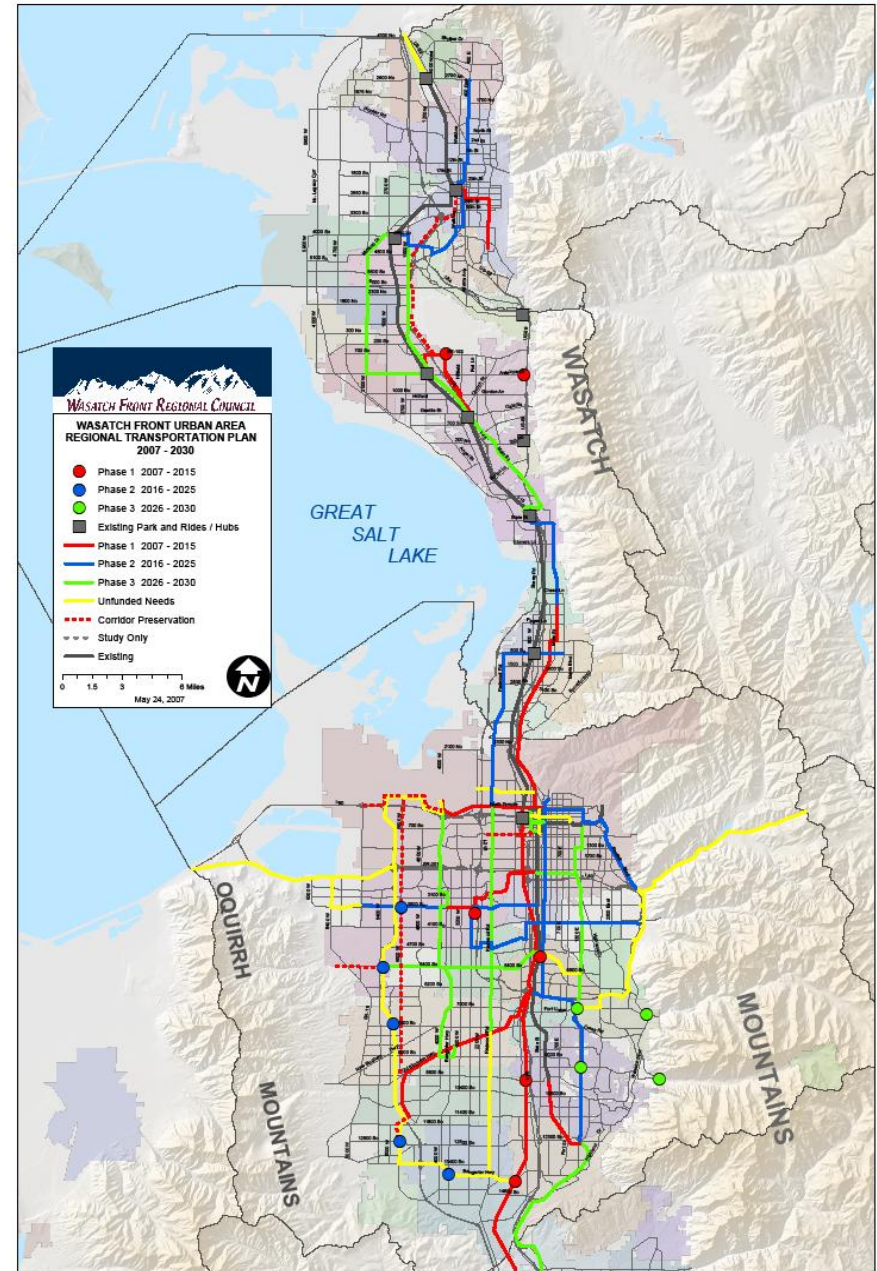

- Equals one lane of traffic on I-15 during peak hours
- 30% of students going to the University of Utah
- 50% of employees at the LDS Church Office Building
- 60% of employees at Beneficial Financial Group

- Provo to Salt Lake FrontRunner

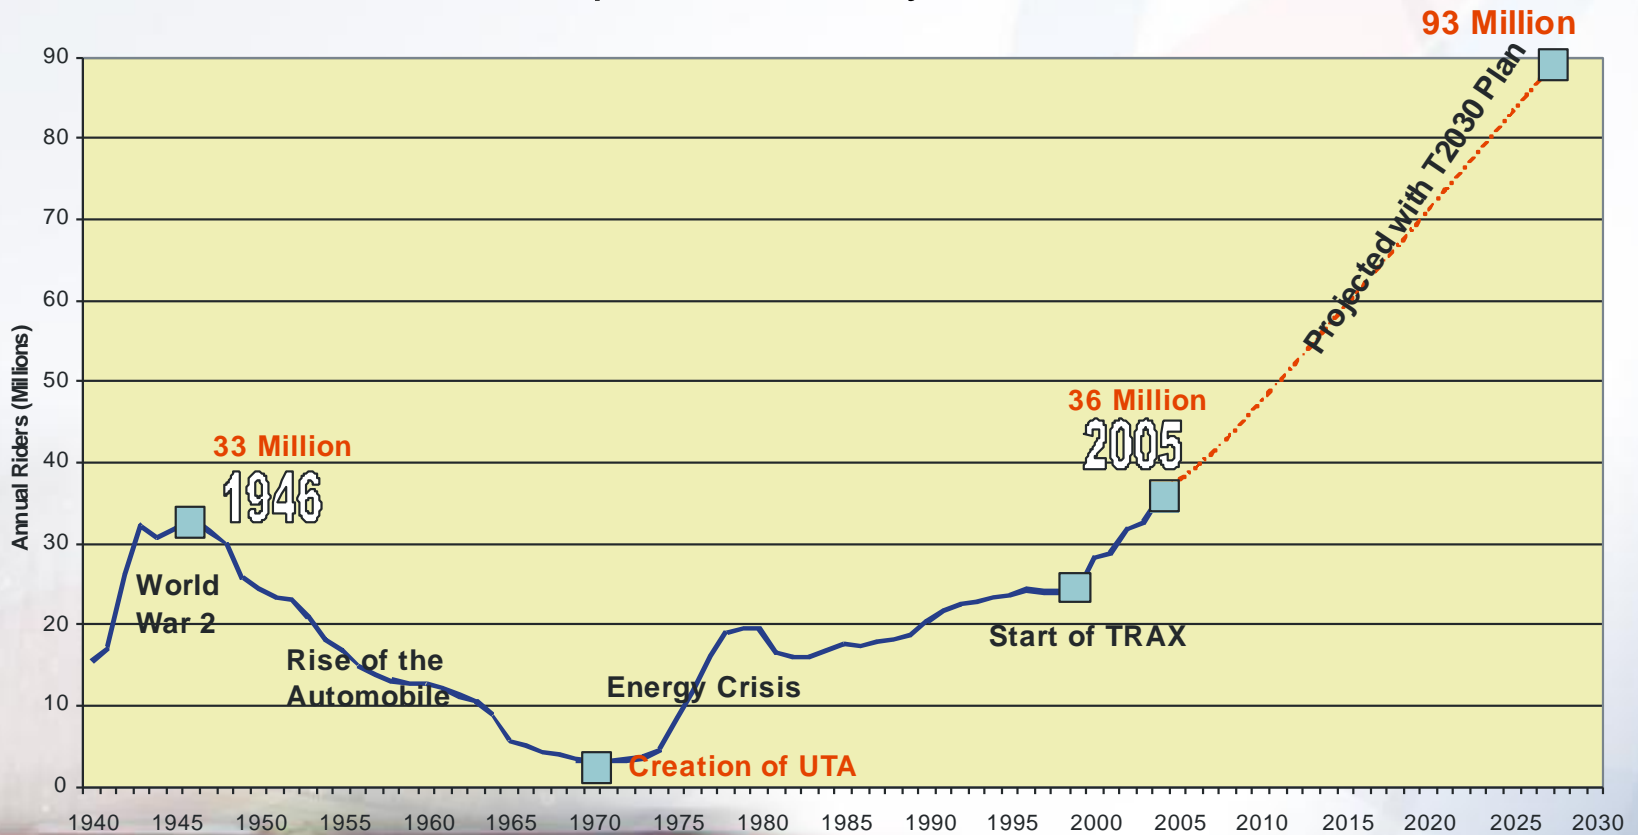

UTA's Vision

Every resident
along the
Wasatch Front
within
one mile
of a major transit
stop by 2030

Transit Success

- UTA ridership at record levels and growing
- More than 38 Million trips taken last year

Estimated Statistics between Salt Lake, Davis and Weber Counties:

acres within 1/2 mile of transit nodes:

80,000

Housing units within 1/2 mile transit nodes @ 8 DU/acre on half of the acres:

320,000 units

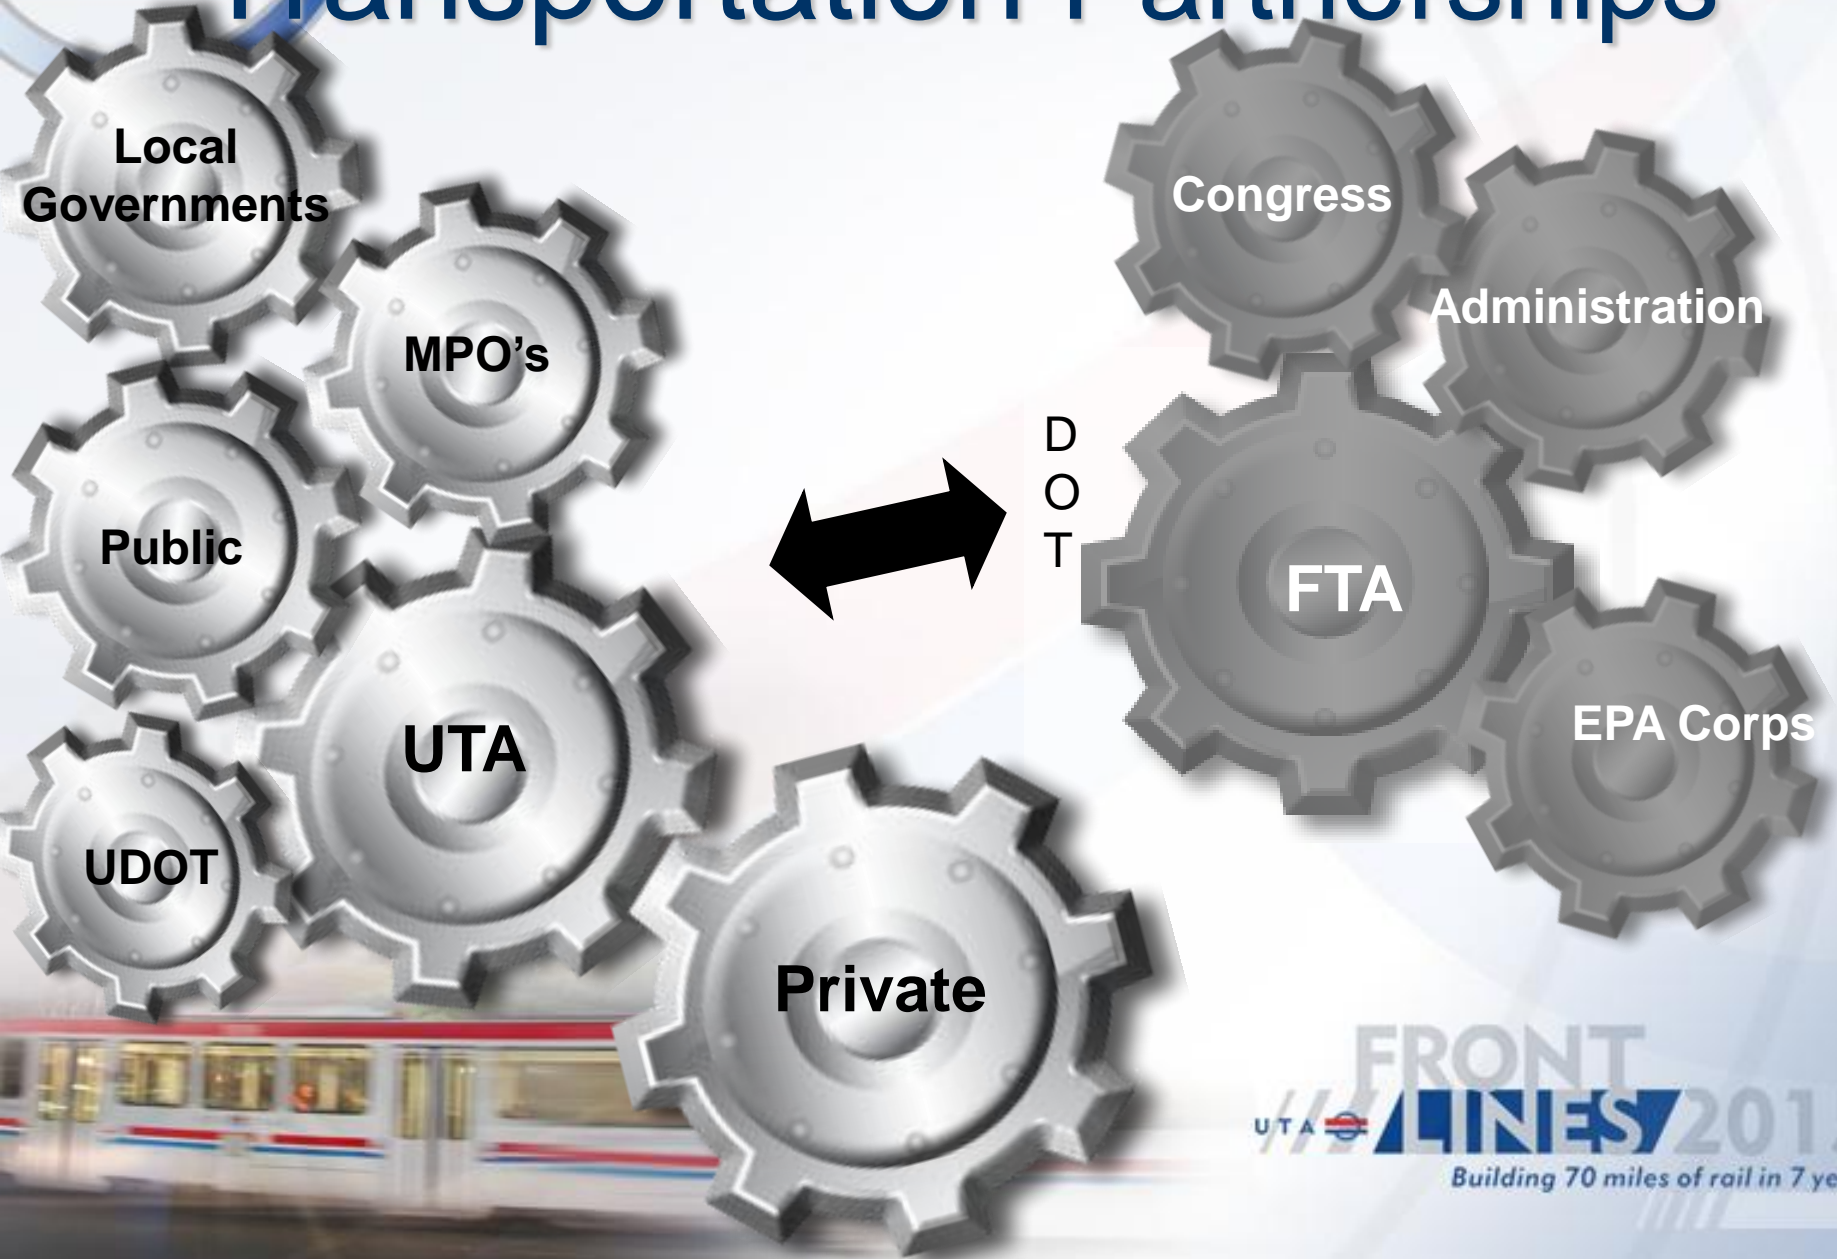

Population estimate @ 3 persons per household:

960,000

80,000 Acres = 125 Square Miles

Principles for Successful Public/ Private Partnership

- 1 Prepare Properly for Public/ Private Partnerships
- 2 Create a Shared Vision
- 3 Understand Your Partners and Key Players
- 4 Be Clear on the Risks and Rewards for ALL Parties
- 5 Establish a Clear and Rational Decision- Making Process
- 6 Make Sure All Parties Do Their Homework
- 7 Secure Consistent and Coordinated Leadership
- 8 Communicate Early and Often
- 9 Negotiate a Fair Deal Structure
- 10 Build Trust as a Core Value

Why transit stations make great Public Private Partnerships

- Enhances mobility
- Optimize the use of existing Infrastructure.
- Build strong relationships between government & business
- Increased accountability
- Increase ridership.
- Build upon existing UTA resources.
- Promote growth and development

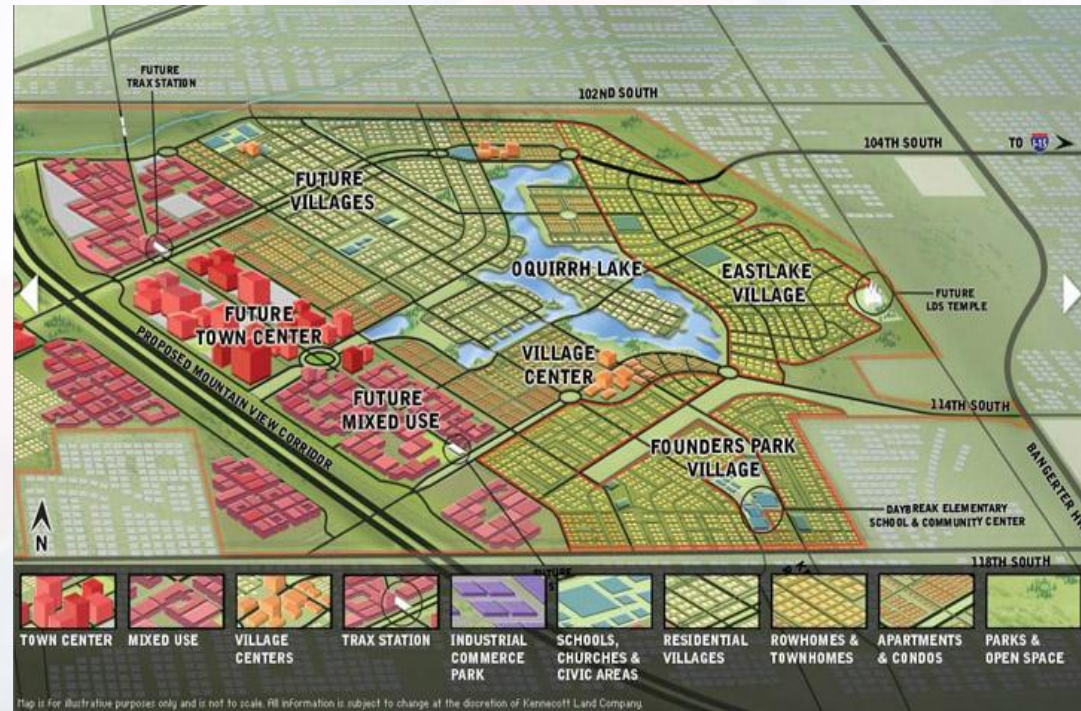

Case Study – 1 Daybreak, South Jordan, UT

Challenges:

- Major expansion in population
- Distance from main population core
- Environmental concerns
- Costs of Infrastructure
- Ground up development

Rewards:

- \$1.5 M donated to advance FEIS
- \$5 M donated land
- Walkable community
- Single Owner
- Transit is backbone of the community
- Master planned TOD

Case Study – 2 City Creek Center, Salt Lake City, UT

Challenges:

- Existing Infrastructure
- Transit in place and in use
- Major activity center, difficult for redevelopment
- Local municipality constraints

Rewards:

- Transit is the focal point of development
- \$2 Billion dollar investment.
- Outstanding downtown location with mixed uses
- Creating a genuine partnership with Developers, retailers and businesses
- 24/7 Activity center with residential, retail and office.
- Anticipated continued growth

Case Study – 3 Station Park, Farmington, UT

Challenges:

- Ownership change before deal points could be finalized
- City and Development community unfamiliar with the benefits of TOD
- Transit station was a variable and not an asset.

Rewards:

- Economic growth engine for community
- Increase ridership
- Leverage private sector investment
- Great mixed-use development
- Creating a community destination.

Case Study – 4 Intermountain Hospital, Murray, UT

Challenges:

- Brownfield's Site
- Multiple Owners
- Site access
- Up and coming area

Rewards:

- Nexus for Light rail and Commuter rail
- Built station for future development
- Community understands the benefits of TOD
- Community vision allowed the related commercial, office and residential development.
- IHC and UTA investment will yield long term economic benefit.

Case Study – 5 Bingham Junction, Midvale, UT

Challenges:

- Multiple Developers
- Brownfield's site
- Sizeable Infrastructure costs
- Development to come online before transit system.

Rewards:

- Land donation for Station
- Developer and City understands the benefits of TOD
- Substantial residential component
- Mixed-use development
- TOD as sales tool for residential developer
- Optimize existing infrastructure
- Creative and Flexible
